## • WHO ARE WE ?

The family Spiridon believes that all projects and ideas could be materialized. We are convinced that originality and quality are not exclusive and that these are two key elements when designing your interiors. That is why we offer a wide range of lightings and the possibility to produce your own personalized chandeliers.

In addition to the collection displayed, any of our model can be modified upon your request. Helped by young designers, our team supports you for any tailor-made product and will guide you through all the step of the creation. Moreover, we offer to the architects and to our professional partner all the help they are needing to make their project a success.

Constantly looking for a perfect consumer experience, we engage ourselves to require from our workshop a dedicated work. Thanks to an exigent selection of our raw materials, the quality of the artisanal manufacture of our products is guaranteed. Our close relationship with our partners allows us to answer quickly to any of your specific needs.

# About FLAMBEAU...

A unique and refined atmosphere, with sparkles between subtle shades of lights and shadows ... who better than our family of FLAMBEAU models are able to warmly illuminate your interior while affirming the know-how of our workshops?

The collections that make up this family have all become essentials in interior design. Universal, timeless, these models have been shining all over the world for many years and have made the great reputation of our brand.

LIGHT BEADS

ANTIC

SILVER

The main characteristic of our **FLAMBEAU** luminaire family is that all models are composed of a metallic structure entirely or lightly covered with small glass beads, with glass crystals fixed on the structure. Some models also have copper elements.

Depending on the collection, the models are available with more (F) or less (S) beads, or with two finishes: **AN** (antic) or **SI** (silver)
