

MUYE

Spiridondeco.com Deco

• WHO ARE WE?

The family Spiridon believes that all projects and ideas could be materialized. We are convinced that originality and quality are not exclusive and that these are two key elements when designing your interiors. That is why we offer a wide range of lightings and the possibility to produce your own personalized chandeliers.

In addition to the collection displayed, any of our model can be modified upon your request. Helped by young designers, our team supports you for any taylor-made product and will guide you through all the step of the creation. Moreover, we offer to the architects and to our professional partner all the help they are needing to make their project a success.

Constantly looking for a perfect consumer experience, we engage ourselves to require from our workshop a dedicated work. Thanks to an exigent selection of our raw materials, the quality of the artisanal manufacture of our products is guaranteed. Our close relationship with our partners allows us to answer quickly to any of your specific needs.

About MUYE...

Discover the MUYE family, immediately recognizable by its unique and amazing manufacturing: the exceptional composition of the family's luminaires creates an impression of a shower of light that shines along suspended wires, all covered with pearls and extended by a glassdrop - particularity of this product line.

In addition the visual feeling that emerges is unique: waterfalls, droplets, showers... It's not a random fact if we named our models with so evocative names.

MUYE definitely is the meeting of light and water.

The main characteristic of our MUYE luminaire family is that it consists of long strings of glass beads, extended by a glass drop, all suspended on a nickel-plated metal structure.

All MUYE models have a main finish **WB** (Clear) but can also have other finishes on request (black, mat, colors, ...)
